Bubby™ Baby Bottle Holder

No Hands
Needed!

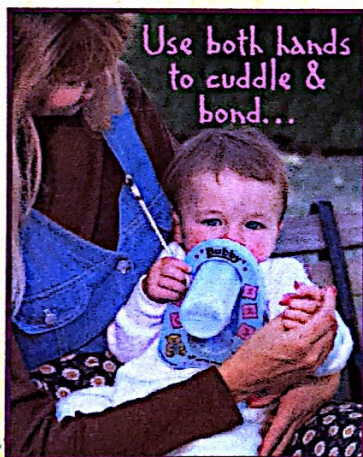

U.S. Patent # 5,711,500 (Foreign Patents)

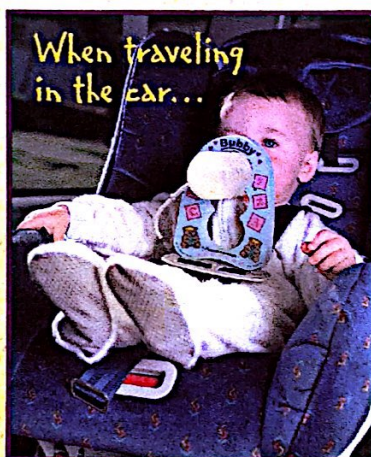

In the
stroller...

Patented design allows parents
to feed their baby hands-free!

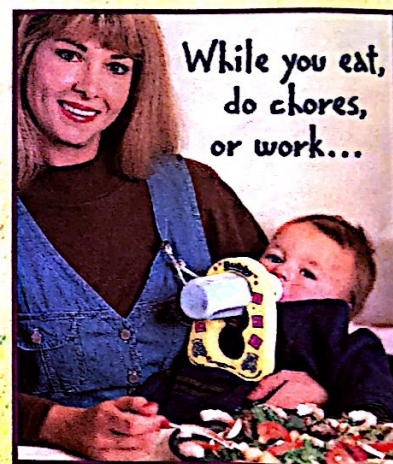

- Bottle tips away when baby releases nipple
- Non-toxic safe & easy to clean
- Adjustable to different positions for baby's comfort
- Heart clip attaches to baby car seat, stroller, or you
- Keeps bottle within reach
- Tested and fully meets Federal Regulations and ASTM Standards
- Great for twins! ■ Can be used as a teether

Use both hands
to cuddle &
bond...

When traveling
in the car...

While you eat,
do chores,
or work...

Simple to use
and great
for twins!

Here's what parents & doctors are saying about Bubby -

"It's the best invention since the bottle. Why didn't I think of it?"
— T.S. (Seattle, WA)

"My husband and I don't have to trade holding the baby, we can
both eat at the same time - while our baby eats."
— Dr. S.C. (Long Beach, CA)

"What a relief! I wish I had this with my other two boys.
Now it makes it so much easier."
— V.M. (Orlando, FL)

"As a practicing pediatrician, I have been very favorably impressed with
the Avéco Baby Bottle Holder and would not hesitate to recommend it..."
— Dr. S.R. (Pasadena, CA)
